

```
#include <stdio.h>
struct student
```

```
{
    int roll;
    char grade;
    float marks;
};
```

```
int main()
```

```
{
    struct student s;
```

```
    printf("size = %zu bytes", sizeof(s));
```

```
}
```

Manual

Int-4

Char-1

float-4

} 9 bytes

output

size = 12 bytes

Not same due to padding
